

FRAME TYPE	SixStar Frame with FeatherLight Folding
STRIDE LENGTH	50.8 cm / 20"
FLYWHEEL	8.5 kg
FOOTPAD	Oversized Pedals with Rubber Grips
STEP-ON HEIGHT	26.6 cm / 10.5"
Q-FACTOR	5.6 cm / 2.2"
RESISTANCE SYSTEM	Induction Brake
POWER REQUIREMENTS	Power Cord
RESISTANCE LEVELS	30 Electronically Adjustable
DIMENSIONS	173 L x 67 W x 171 H cm
FOLDED DIMENSIONS	102 L x 67 W x 171 H cm
PRODUCT WEIGHT	79.5 kg
USER CAPACITY WEIGHT	136 kg
ACCESSORIES	Energy Saver Mode, One-Step Folding

## CONSOLE

DISPLAY	6.25" Blue Backlit LCD
WORKOUT FEEDBACK	Time, Distance, Calories, Speed, RPM, Resistance Level, Heart Rate, Watts, HR Wheel Power Graph and Profile
PROGRAMS	14 Programs (Manual, Intervals, Games, FitTest, Weight Loss, Weight Loss Plus, Rolling, Reverse Train, Constant Watts, Interval Watts, THR Zone, %THR, Strength Builder, Custom)
HEART RATE	Contact grips & Polar® wireless receiver
EXTRAS	Energy Saver Mode, Passport Ready, Speakers, Easy three-step assembly

### SixStar Frame

Move the way you were intended to move thanks to the exclusive SixStar frame that promotes ideal body positioning and a natural path of motion.

### Passport Ready

Take a vacation from your everyday workout with the Passport Media Player, which displays stunning forward-motion footage on your television and syncs it with your equipment for an immersive exercise experience.

### Energy Saver Mode

Conserve electricity with our Energy Saver feature, which puts the console in sleep mode if it is inactive for 15 minutes.

### FeatherLight Folding

Our one-step hydraulic system does all the heavy lifting as it gently lowers your treadmill deck when you're ready to use it and effortlessly raises it when you're done.

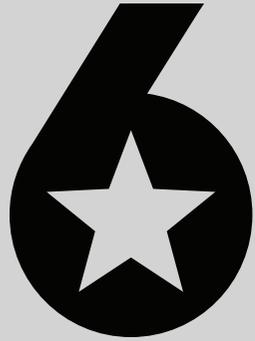

### Audio Features

Built-in speakers and audio input jacks allow you to play your favorites from an MP3 player, tablet, smartphone or other device.

### Precision Power

Our Precision Power induction brake lets you make accurate and instant resistance changes. You also get more reliable feedback, which takes the guesswork out of your workouts.

**SIXSTAR**  
**FRAME**

- ## 1. SMOOTH MOMENTUM

The large drive pulley ratio creates the smoothest, most efficient motion. A smooth feel means users are inclined to workout longer and stay motivated, meaning a better workout.
- ## 2. IDEAL PEDAL PLACEMENT

Extremely narrow Q-Factor eliminates stress on hips and back. This gives users a more natural feel mimicking a walking or running footpath.
- ## 3. OPTIMAL HANDLEBAR SPACING

Grips are within ideal reach and distance for both small and large framed users. Handlebars are at a 45 degree angle, the same angle as your hands would naturally fall on your side. Most comfortable and similar to a body's natural position.
- ## 4. STRAIGHT BODY POSTURE

An upright body posture is the most comfortable and yields the fastest results. This allows users to stay on longer and therefore reach their fitness goals faster.
- ## 5. NATURAL FOOT PATH

A flatter elliptical pattern closely mimics a natural running or walking motion. Users will feel more comfortable and get better results out of their workout.
- ## 6. LOW STEP-ON HEIGHT

Pedals placed low to the ground are easier to step on and off. This means easier entry and exit for all ages and sizes of customers.
